14:30 – 17:00 Seminar: Transforming risk to reward: avoiding catastrophic incidents and improving reliability

This seminar is a must-attend session for executive leaders whose business is exposed to operational risks through manufacturing processes. It will highlight the importance of risk control, and offer first steps, practical case studies and valuable takeaways to make rapid, dramatic and sustainable improvement in performance.

Session one: The importance of risk control

This session will highlight why risk control is so critical for your business; including the potentially devastating impacts on your workforce, reputation, reliability, and bottom line. Given its importance, why is it that companies so frequently fall into the trap of believing their risks are under control only to have a catastrophic incident? Common blind spots and cultural shortcomings will be explored as well as emerging systematic risks.

Facilitated by:

Sven Royall, *Managing Director*, Pilko & Associates

Speakers:

Mosaed Al-Ohali, *EVP, Corporate Finance*, SABIC

Detlef Kratz, *SVP, Corporate Technology and Operational Excellence*, BASF

George Pilko, *Chairman*, Pilko & Associates

Session two: Best practices in risk control

What companies can do proactively. This session will address the importance of dynamic risk control that covers both the "soft" side – leadership, culture and organizational capability - and the "hard" side - operational processes and maintenance practices. Practical pointers will be shared to allow you to assess your organization's "Risk IQ" and help you ensure that your critical operational risks are under control.

Speakers:

Matthew J. Aguiar, *SVP*, ExxonMobil Chemical Company

Yasser Alabbasi, *Plants Operation Manager*, GPIC

Sultan Al Bigishi, *SVP, Ruwais Refinery West*, ADNOC Refining

Facilitated by:

14:30 – 17:30 Business networking and exhibition

17:30 – 19:00 GPCA Legacy Award – Al Rowad (الزّواد) ceremony

The Gulf Petrochemicals and Chemicals Association (GPCA) is proud to announce the launch of the **GPCA Legacy Initiative** and the first **GPCA Legacy Award “Al Rowad”** (الزّواد)

Dedicated to the pioneers of the chemical and petrochemical industry in the Arabian Gulf.

First of its kind in the region, the annual program will honor individuals who have made extraordinary contributions to foster and strengthen the development of the chemical and petrochemical industry in one or more of the GCC states.

The ceremony is open to all Annual GPCA Forum delegates.
